

Unit 4 Chemical Reactions Project Rubric – Listening Party

Name _____

Period _____

Objective: Students must create audio presentation that explains a chemical reaction. This may be recorded, videotaped or performed live.

Each of the six criteria below must be included in the project. Each criteria is worth a total of 10 points. Partial points may be given for incomplete work. Extra points may be given for going above and beyond the requirements listed below.

- _____ Type of chemical reaction is identified
- _____ Reaction Definition
- _____ General equation is identified (Example $AB + C \rightarrow AC + B$)
- _____ Example equation is given
- _____ All possible sub equations are identified
- _____ Product predictions are explained

0	29	39	49	59	69	79	89	A
Project not turned in	A project was turned in but none of the six criteria above were included	Only 1 of the 6 criteria were included	Only 2 of the 6 criteria were included	Only 3 of the 6 criteria were included	Only 4 of the 6 criteria were included	Only 5 of the 6 criteria were included	All 6 criteria were included	Consideration was taken to go above and beyond the requirements for this project

29 + _____ + _____ + _____ + _____ + _____ + _____ = _____ + _____ =
